REMATE
POR
Adolfo Bullrich y Co.

De un magnifico establecimiento de Campo Flor en el partido de Brandzen, antes La Magdalena, conocido por S. Julian.
2800 cuadras cuadradas
TODO ALAMBRADO
Con poblaciones, alfalfares Montes etc.
En dos Lotes
En nuestra casa calle Alsina No 78
El Jueves 28 de Abril
A las 2 en punto de la tarde
Se rematara a la mas alta postura y pasando de la base mas abajo fijada y dinero de contado por orden terminante de sus propietarios.
El establecimiento de campo ubicado en el Partido de Brandzen (antes la Magdalena) y conocido por San Julian uno de los mas importantes y principales de ese partido, distante solamente 16 leguas de la Capital a 5 leguas de la Estacion Ferrari [Ferro Carril del Sud] 6 leguas del importante puerto de la Ensenada y 8 leguas del pueblo de la Magdalena, previniendo que el projectado ramal de ese Ferro Carril para a 2½ leguas de la Estancia y el viaje desde la ciudad se hace comodamente en 5 horas.
El campo tiene una figura regular y se compone de un cuadrilongo perfecto siendo su superficie total de 2 leguas o sean 2800 cuad. cuadradas proximamente alambrado por sus cuatro costados, hallandose el alambrado en perfecto estado con medios postes a cada 4 vs. y un poste entero cada 50 varas con 4 y 5 alambres, existe ademas en el centro del campo un alambrado que forma un potrero de 500 cuadras mas o menos.
La venta se hara en dos fracciones.
1ra Fraccion—1600 cuadras cuadradas con una poblacion de material compuesta de dos piezas, dos mas de quincho, una cocina id id, techos de paja y un pequeno de monte, arboles frutales selectos, cerco de alambre, un gran potrero zanjeado y alambrado de capacidad para encerrar de 2 a 3000 vacas como actualmente existen alli, pozo etc; otro puesto mas de una pieza de material, una pieza de quincho y pozo de balde.
La base para la venta de esta fraccion es de 800 pesos (ochocientos pesos m/c] la cuadra cuadrada incluyendo alambrados, poblaciones.
2da—1200 cuadras cuadradas con la Estancia principal compuesta de 6 piezas azotea, techos y pizos embaldozados, un corredor techo fierro galvenizado, algibe, cocina etc. La casa esta casi toda rodeada de un hermosa parral y al frente un jardin con pilares de material y puerta de fierro. En cuanto a arboles frutales de clase superior de adorno y monte para lena, no hay otro establecimiento en el partido que se le pueda igualar.
Hay ademas 5 piezas de material techos de paja para los peones; a un costado del monte frutal hay tres piezas mas de material un zotano como para la fabricacion de queso y manteca que antes exista alli, un hermoso alfalfal, ademas un gaipon techo de teja para la esquila y cuatro puestos mas algunos con 3 piezas, otros con una pieza de quincho, techo de paja, pozo y algunos arboles y en uno de los puestos una pieza de material, tres hermosos jagueles en varias partes del campo; en la estancia un corral de nandubay de 49 vs por 50 con zunches de fierro en perfecto estado, corrales para ovejas, palenques, etc.
Los demas puestos que habia en el campo se han deshecho por haberse destinado para invernada de hacienda vacuna que por su proximidad a los corrales se presta admirablemente para el objeto en cuanto para ganado lanar estos campos son reputados como los mejores de la Provincia, y lo demuestra los precios que se han obtenido por las lanas de este partido desde 26 anos atras.
Ademas para la agricultura, no decimos sino que no hacen seis semanas que se ha arrendado un campo en esas inmediaciones (La Ensenada) compuesto de 800 cuadras por $240,0000 al ano con contrata p.r 5 anos esto en publico y not rio, por lo tanto, creemos que este campo infinitamente mejor vale lo mismo. Base $1000 cuadras, los interesados deben visitarlo y se convenceran que lo decimos es la verdad.
Ocurran por mas informes a nuestra casa Alsina 78.

BRITISH HOSPITAL BENEFIT.

The benefit in aid of the British Hospital funds is announced for the 20th inst, and in reminding our readers of the fact, we may also remind them of the value of the Institution to the British community in the Plate. There are from 40 to 50 beds constantly occupied, and each month we publish the doctor's statement of the relief afforded, which leaves nothing to add to show the utility of the Hospital and the very great want it meets.

In announcing the benefit now about to be given, we feel it right to remark that, whilst the hospitals of other nationalities meet with ample support from bazaars, St. Cloud fetes, Kermesses, and Spanish and Italian fiestas, the British Hospital relies upon occasional amateur theatricals to aid its subscription lists, and this class of charitable support, perhaps, weighs less than any other upon the community, since, besides aiding a worthy meritorious cause, it affords amusement and entertainment to our community, which, from one cause or other is extremely scattered and seldom brought together.

The British Hospital, it appears, needs larger accommodation, but its funds are insufficient to afford it, and a few charitably disposed ladies and gentlemen, with a view to raise those funds, have learned their parts, and after repeated rehearsals propose to give in Colon one of the most celebrated pieces ever produced of the London stage, 'School'—a comedy in 4 acts—by Robertson, to be preceded by the comedieta 'Who's to win him.' We can promise our readers, therefore, a most enjoyable evening's entertainment. The best theatre in the city has been engaged, and the players are young ladies and gentlemen who only in response to the call of charity, and to help an institution such as the British Hospital, consent to play on so public a stage.

The Hospital Committee, very properly interpreting the object of the performance and the wishes of a very large portion of our community, has put the prices on a moderate scale, and the cazuela will be thrown open to both sexes at the low charge of 15 m|c.

We trust, therefore, to see a very full house on the night in question, not only to aid the funds of the Hospital, which has such great claims on us all, but also in compliment to those truly kind and charitable ladies and gentlemen who have gone to such great trouble with no other object than that of helping their sick fellow-countrymen.

We really have not words sufficient to thank the actresses and actors, since we are fully aware of the study, the trouble and expense they have been put to; success is the only recompense we can offer them, but we feel certain we can promise them that, and that the British public, appreciating their exertions, will fill the Colon to its utmost.

BI-METALLISM

What shall be the currency of the world? What shall be the medium of exchange between the Nations? These questions have racked the brains of the first financialists of Europe for some years back. On the one hand we have the mono-metallists, with such names as those of Gladstone, Lowe, Fawcett, arrayed in favor of what they call a gold standard; on the other we have the bi-metallists, with that of Leon Say and others of equal renown, arrayed in favor of the joint use of gold and silver. The discussion has penetrated even to Buenos Aires.

On the 20th May last, Mr Barclay, (of the house of Barclay Campbell & Co.) read a paper on this subject before the members of the English Literary Society. This paper, published in the form of a pamphlet, and edited by Mr W Leighton Jordan, now lies before us.

The importance of this subject has been forced upon us by the commercial paralysis which succeeded the first great step to the adoption of a general gold standard, the recent demonetization of silver by the German Empire, followed by the cessation of the coinage of silver by France.

Great mistakes in the consideration of this subject arise from the very common idea that gold or silver ever were or ever can be, the standard of value.

What says Adam Smith—'Labour was the first price, the original purchase money that was paid for all things'—and again—'Labour is the real measure of the exchangeable value of all commodities.'

Money as we know it, consists of metallic coins and of inconvertible paper. What then is money if it is not the standard of value? Money is the legal tender for value. The value of gold or silver or paper as a means of exchange, depends solely upon those legal enactments which make them accepted as an equivalent for labour.

In theory, inconvertible paper would be unquestionably the best medium of exchange, simply because it has no appreciable intrinsic value of its own. But theory and practise are often wide apart; so long as the world remains divided into different nations, it will be impossible to create an inconvertible paper money which should have currency all over the globe. The world and its monetary systems have grown up together, till we find ourselves now with a total currency, in gold, silver and token money, of about £1,400,000,000 stg.; and with inconvertible paper to an extent of perhaps £100,000,000 more.

In four countries, Great Britain, Portugal, Chile and Australia, the unit of value is represented in gold, silver is merely an article of commerce, In France, Belgium, Switzerland, Spain and some other countries, the unit of value is represented in gold and silver alternatively at the rate of 15½ to 1. In Holland, Sweden, Mexico, India, China, &c., the unit of value is represented in silver; gold is merely an article of commerce. The German Empire is in a state of transition, the unit of value is nominally represented in gold, but a large amount of silver is yet a legal tender at the ratio of 15½ to 1. The United States has not made up her mind who currency to adopt, is coining both gold and silver, and has yet a large amount of inconvertible paper which circulated at par.

Where the world divided into two groups only, in one of which gold was exclusively the legal tender, in the other silver; commerce between nations of different groups would have been of so highly speculative a character as to be almost impossible. The interposition of a third group in which both metals are current, has smoothed away this difficulty.

The value which gold and silver possess as a medium of international exchange, does not depend upon any intrinsic value which lies in themselves. Indifferent countries they are the legal tenders for value. Accounts can be paid to any amount in gold in Great Britain, or in silver to any amount in India. An arbitrary value is given to gold and silver by the laws which make them legal tender, but their real value as money depends upon the proportion their total amount bears to the requirements of the world for money as a means of exchange.

In the reign of Edward the Third the average price of wheat in England was six and eight pence the quarter. The shilling of the reign of Edward the Third contained twice the amount of silver which the value of the shilling of to-day represents, therefore the comparative price of wheat should be stated as 13s. 4d. the quarter. Wheat is now 40s. the quarter, yet wheat is not of greater comparative value now than it was in the days of the Plantagenets. Wheat has not risen in value; it is the value of money which has decreased. The world requires much more money now than it did in the reign of Edward the Third, but it has more, and greatly more in proportion to its needs than

Can be used with COLD WATER. Sole Agents MOORE & TUDOR, Maypu 95 and 127. Beware of imitations and falsification

it had in his day—therefore money now is of less value. The standard of value is the same, labour, but the power of money to purchase labour is less; therefore wheat and every thing else has risen greatly in money value, which is equivalent to saying that the real value of gold and silver is less in the same proportion.

A certain amount of money is required for the Exchange business of the world. In accordance with the natural law of demand and supply, if there is more money in circulation than the business of the world requires for its Exchange operations, the value of money will decrease, that is to say, a given amount of it will bear a less proportion to the real standard of value, which is labour, than it did before; and this decrease will continue until the total value of the money in circulation correspond with the total value of the labour it represents. If on the other hand the business of the world increase, while the amount of the medium of Exchange remains stationary, the value of this medium will increase, that is to say, a given amount of money will purchase a greater amount of labour than it could before; there will be a general fall in prices.

The total amount of gold in circulation is estimated at about £750,000,000; the total amount of silver in circulation is estimated at about £500,000,000. If it were possible for the advocates of monometallism to carry their idea at once into operation, one-third of the total currency of the world would be thrown out of circulation, and could not be replaced by gold. The consequence would be a tremendous rise in the value of money, a fall of prices which would paralyze commerce and spread ruin and disaster over the whole civilized world. But mono-metallists do not propose to carry out their ideas at once; they propose to do it gradually.

Let us see the effect of the first step taken in carrying out this idea. The large purchases of gold by Germany naturally raised the value of gold elsewhere. In those countries where gold only was a legal tender this 'appreciation' of gold produced a rapid fall in prices of all other commodities. The void created by this absorption of gold by Germany might have been supplied from countries having a bi-metallic currency, who might have substituted silver for gold to an equal amount, and so preserved the normal amount of money in circulation; but France, the great leader of the bi-metallic system, became alarmed lest this loss of gold should produce a permanent depreciation in the relative value of silver, stopped the free coinage of silver at her mint, and this produced a contraction of the total amount of the circulating medium, an increase in the purchasing power of money, a general fall in prices, and a partial paralysis of commerce.

The alarm of the French bankers does not seem to us to have been well founded. The enormous production of gold in California and Australia since the year 1852 has utterly upset the proportion previously existing between the quantities of gold and silver in circulation, yet it had no effect whatever upon their relative value. The excess of gold was just so much more added to the circulating medium of the world, and has done little more than meet the increased requirements of commerce. That silver did not depreciate in value after 1874 was seen in India, where its purchasing power was steadily maintained, although the exchange value of the rupee fell more than 20 per cent, in consequence of the 'appreciation' of gold in England.

The bi-metallic system was established in France in the year 1785 by a law which decreed that both gold and silver coins should circulate as legal tender at a relative ratio of fifteen and half pounds of silver to one pound of gold. That this ratio of 15½ to 1 is purely arbitrary there is no question, but the law which makes either silver or gold, or both, a legal tender, is arbitrary also. Once that the leading commercial nations of the world agree upon this or any other ratio as the relative value of gold or silver, there can be no further relative depreciation of either one metal or the other. No miner will sell either his gold or his silver at a lower price than its value in the markets of the world; both silver and gold would be absorbed by the circulating medium as they are produced, and any excessive production of either will simply augment the total amount of money in circulation. That this ratio can be maintained in the face of very great irregularities in the relative productions of gold and silver, is proved by the experience of ninety years, from 1785 to 1874, during which years a slight excess of gold at one time, a slight excess of silver at another, in the vaults of the Bank of France, sufficed to maintain the equilibrium for the whole world.

On the 18th inst. an international monetary conference will be opened at Paris, at which both mono-metalists and bi-metalists will be ably represented.

To all our readers this subject must be of great interest, and we can cordially recommend to them a careful perusal of this pamphlet by Mr Barclay.

ROSARIO.

(From our own Correspondent.)

April 9th.

It is seldom that we have to complain of the health of Rosario. Epidemics are rare, and at the end of each year we tot up the gross sum of death, which scarcely ever varies from between eleven and twelve hundred, or about 26 in a thousand. This season, however, is an exception. Fevers have been and are very prevalent, and they generally degenerate into typhus; and the mortality has increased fully 25 per cent. within the last two months. It is usually young people who are taken down by these fevers. The funeral of a young girl, Miss Lacroix, the other day, was very affecting. Contrary to custom the coffin was carried for some squares by young men, and accompanied by all the young ladies of the Normal School and companions of the poor dead girl. Each one carried a wreath of white flowers. This was one of the many victims of typhoid. I am happy to say that Dr. MacInnes is so far recovered that he has taken a trip to the country. Mr. William Tietjen is out of danger, but has had a severe bout. Amongst the lower orders the epidemic is more fatal, for fevers require constant attention, which is not always at the command of poor people. It is to be hoped that the cool nights that we have now will drive away the causes, whatever they may be, of the prevalent fevers.

The *Correo Español* congratulates the public that several hours had elapsed without a suicide; a grim way of intimating the spread of this kind of fever, which, like any other must be contagious. I have to chronicle another in Rosario—a Mr. Lando drowned himself in the Parana. Before leaving the house he told his wife that he was going to take a trip, and that he would write her the news from the place he was going to. I believe suicide is really contagious. Why should it not be so, when it is known that that extraordinary and little known disease, Catalepsy, isc ontagious? Shall I tell you a story anent the subject? I question if one out of a hundred of your readers have heard of it, and yet every word is true, authenticated by unimpeachable testimony. It is a tale to 'harrow up your soul.' But I think I will not give it to you in this letter; better to wait for my next, which you will be able to publish on Sunday, a day that people rather like to have their souls harrowed up.

When you were a little boy, my dear *Standard*, I remember having written an article on the feasibility of growing rice on the islands of the Parana, Well, Mr. Edward Haines, who possesses an island in front of Rosario, and now completely under water, has succeeded in growing a fair crop of rice of a good quality. Like the grain in South Carolina, it grows pertectly well under water. Mr. Haines gave me a sample, which I reserve for the *Standard* Museum. I have always thought that the islands of our rivers, and particularly those of the great Delta, were admirably adapted for the production of rice. Mr. Haines, who, were he not a lawyer, would certainly be a Robinson Crusoe, possesses on his island a numerous colony of bees, collecting honey enough to furnish the market of Rosario. The hives are placed out of the reach of the highest floods, and the flowers of the aquatic plants afford abundance of food.

I am sorry to have to inform you that the famous stud of 'Las Rosas' has suffered a loss. Mr. Kemmis tells me that he has lost two promising colts, amongst the finest in the place, Escoses, brother to Pretendiente, and Rouge Croix, brother to Sub-Rosa. He has also lost a filly and a thorough-bred bull.

The *Standard* has not been polite enough to answer my question about the Loan. As your correspondent, people come to me for information on such subjects, and all I can tell them on this is that the Government receives 82 dollars for the privilege of paying back 100 with interest.

Notwithstanding all I have said, you have insisted on sending us batches of thieves from Buenos Aires. We have in Rosario well organised bands of robbers that count amongst their ranks house breakers, highwaymen, shoplifters 'rateros.' Our police are rather at a loss, for the thieves are evidently more quick-witted than they are.

The supply of Tucuman sugar is about exhausted, and we shall have to wait for the new crop. The consumers have had to go back on the Pernambuco, which had become somewhat discredited. It is to be hoped that next season the supply of native sugar will drive the Brazilian article out of the Rosario market. We have lately been receiving very heavy lots of refined sugar from France and Belgium.

I send you, by the attention of Mr. Ernest Davis, the sample of Island Rice, and also a parcel of dry Locusts, which I will thank you to hand over to Mr. Kyle for the experiments he offered to make.

Captain Crowell, not satisfied with the glory of the 'Venetian Fete,' followed it up with a ball on board his splendid vessel, at which there was a gathering of all the 'upper crust' of Rosario, English and native. It was a complete success.

Your notice of Messrs. Parry and Co.'s Argentine Corned Beef have made our mouths water. I hope that, unlike the immigration to the Argentine Republic, it will not all remain in Buenos Aires. We are also men and brothers, although we live north of the 'Arroyo del Medio.'

EDITOR'S TABLE.

The imposing ceremonies with which the Catholic Church celebrates Holy Week commence to-day. To-morrow and Friday will be strict holidays. To-morrow President Roca will pay the customary visits to the city churches: H.E. will be accompanied by all the high civil and military functionaries, and will leave the Red House, for the Cathedral first, at 3 o'clock p.m. Detachments from the troops in garrison will also visit the churches, in full-dress, unarmed.

The Royal Mail steamer Minho will sail on Friday for England, but the mails will close to-morrow at the General Post Office at noon, sharp,

We had occasion to see and admire yesterday some splendid specimens of blankets made in the U. States, of pure wool from the province of Cordoba, and imported specially by Messrs. M Forrester and Co. who have, very appropriately, presented the first pair to H.E. the President of the Republic. Although the maiden efforts of this country in the way of cloth manufacture have not as yet proved very succesful, we feel confident that at no distant day, perhaps, we shall be able to work up our own wool into as good blankets and other coarse articles as the United States now make for us.

At a meeting held on Saturday last to promote the erection of statues to those great Argentines, Moreno and Rivadavia, the following influential gentlemen were named to carry out the patriotic idea, which cannot fail to find a hearty echo all over the Republic:—

The news from the West Coast is anything but promising for peace. President Calderon of Peru has utterly broken down in his attempt to organize Peruvian affairs, and all the foreigners in Lima, and half the Peruvians, are now for allowing (how can they prevent it?) the Chilians to rule there as long as they please, as the only possible way of avoiding Blue Ruin for the whole country. This is really the sorest humiliation yet for Peru, and shows how utterly demoralized her sons are. No wonder that the Chilians knocked them into a cocked-hat. Peru, we fear, is effaced.

Several 'lecheros' have been caught napping within the last few days. If some very vigorous action be not soon taken by whoever is in chief command of the Argentine navy, or, better still, by the Minister of War, it will soon get into irretrievably bad odour with the people. The Inca affair, coming on the top of all the recent 'escandalos, has created a very bad impression' which has been increased by the affair on Monday at the Central Station, where a young middy of the Bermejo drew his sword and slashed open the head of a fireman of the same ship, whose blood poured about the platform. The bystanders were so indignant that the young criminal had a narrow escape of some rougher usage than he, perhaps, imagines.

INDUSTRY HATH ITS REWARD.

To the Editor of the *Standard*.

San Nicolas, April 7th,

Dear Sir,

I believe you will agree with me that the prosperity of Irishmen in the Argentine Republic is no accident. If practical proof of this were needed it could be afforded by pointing to the hundreds of Irishmen in this country who have long been in the enjoyment of handsome fortunes entirely acquired by honest industry. Comparatively poor, they no sooner have arrived here than they are to be found pushing their fortunes in every enterprize in which money can be honestly gained. Whatever profession they pursue, in whatever trade they embark, or whatever calling they follow, whether as doctors, lawyers, merchants, estancieros, &c, they display a talent, and exhibit a tact and show a business capacity not inferior to the people of any other nation with whom I am acquainted,

During a short visit to San Pedro, I had the pleasure of meeting one of the most respectable, intelligent, and, by no means least energetic of Irishmen, I have ever met in South America—Mr Denis Austin. As industry must beget the applause of everyone, the gentleman must pardon me if, without his permission, but with yours, I record a solid recognition of his perseverance and industry, by the International Jury of the Universal Exhibition in Paris, who have awarded him a first-class medal for the excellence of the Rambouillet wool exhibited by him as the product of animals bred by him at his estancia of Santa Clara. A certificate elegantly printed on parchment, and bearing in writing the signatures of the Commissioner General, B, Branse, and of the Minister of Agriculture and Commerce, awarding him Honorable Mention for the fineness, closeness, and soundness of his Merino wool, of which he was also an exhibitor. Owing to a slight orthographical error in Mr Austin's name, medal and certificate have been withheld until a few days ago, and, probably neither would have ever reached him, had not our popular and active Inspector of Agriculture instituted inquiries which resulted in his placing both in Mr Austin's hands.

ON 'CHANGE.

April 12th, 1881

Patacones	28.65
Cedulas A	92
National Bank Shares	81
Bonos Prov	2 prem.

The gold market ruled much firmer than yesterday and prices advanced; it seems that cash gold is in demand and much specie has to be sent up the rivers, as the saladeristas are working hard now, and every day we have to report vessels chartered to load cargoes sold. Another influence on the gold market is that the liquidation or account day for half the month, which in other months falls on the 15th, this month occurs on 13th, owing to Holy Week. Thus it is that the pressure of this liquidation was felt to day and may perhaps be more felt to morrow. Gold opened at 28.60 cash and closed at 28.65; sales $1.62,741. For to morrow 65,000 sold at 28.60, and for 30th prices began at 28.60, dropped to 28.55 and closed at 28.60. Sales for May and June at 28.50 and 28.45. The whole business of the day only amounted to the cash sales of the other day 288,741.

Cedulas improved, and after the alarm of yesterday showed reaction; they say on 'Change that there is a new project in the wind, but the particulars of it are not stated. Prices for end of month opened at 91⅞ and closed at 92. Sales amounted to 94,000.

National Bank Shares ruled quiet but firm at the ring, opening at 80⅝ and closing at 81. Bonos at 2 premium.

The sales at the ring were—
For cash 62,741 at 28.60-65
For April 13th 65,000 28.60
For April 16th 5,000 28.60
For April 30th 90,000 28.60-55-60
For May 31st 20,000 28.50
For June 30th 45,000 28.45
Sales, 288,741.

Cedulas—
For cash A 4,000 at 92
For April 30th A 80,000 91⅞-⅝-92
For May 31st A 5,000 91
For Dec. 31st A 5,000 90
Sales, 94,000.

Nat. Bank Shares—
For April 30th 350 shares at 80⅜-81
For May 31st 50 shares at 80⅝
Prov. Treasury Notes—
For cash 150,000 at 2 premium.

At afterhours gold ruled a shade harder, and may be quoted at 28.62½ for to-morrow buyers, and 28.60 for end month, buyers, and for end of May 28.50.

In Cedulas there was improvement, and 15,000 for to-morrow at 93.

National Bank shares were largely dealt in, and one party who a few days sold out 2000 shares at 80, bought 1800 to-day at 80⅜, and of these right off sold 600 at 81, and another sale of 100 at 81. Market firm.

That the price of city property shares in the general improvement going on in this country admits of very little doubt; auctioneers assure us that the price paid for house property is certainly 20 p. cent over last year, and in some streets even 30 p. cent. The following real estate sales are reported.

Calle Cerrito 207, valued at 84,240 m/c, realized 162,000, a building site Calle Cangallo and Castelli, valued at 33,000 sold for 90,000, Mr Castro buyer.

Messrs Baltar & Quesada sold the following:—

Corrientes 678, house and site, valued at 170,000, sold for 197,000, Mr Avsleyro buyer.

House and site Calle Alsina 753, valued for 130,000, sold for 134,500, buyer Mr Real. A large site alongside sold for 170,000.

The Vandyck goes to Rosario and will load a large cargo of produce there and at San Nicolas.

Another vessel taken up to-day to load tallow at San Nicolas for Havre at 30 frs. and 10 o/o; and a vessel also to load beef for Havannah. We note within the last few days there has been a great stir in charters for sailing vessels, a sure sign that the saladeristas are very hard at work and much business going on up the river.

Messrs. Wisner and Chapeaurouge, in their important wheat circular, give the following—

"Arrival of the week—

Western Railway	7,497	fanegas.
Carts in Plazas	1,150	do
Boca from rivers	2,800	do
Boca from Banda Oriental	526	do
Patagones	169	do
Total	12,142	fanegas,

and 19,104 ar. flour.

"Wheat remained very dull during the week, and few buyers, much has gone into deposit. Rosario wheat sold at 190-197 per fanega 9 ar. Banda Oriental 192 one lot, 800 bags last year's wheat from Chubut offering, not sold. Great speculation in Candeal wheat.

"Flour market at a dead lock; some Sta. Fe sold at 29-33 per ar. Millers here try to get 32-34, but it can't be done. Some remaining bags of Chilian and American are selling under the name of Mendoza; very poor stuff. The Sta. Fe flour this year is excellent.

"A cargo of maize bought for the Cape at 65 per fan. 9 ar. on board. Maize very saleable, everything that enters sells at once."

The splendid Chargeurs Reunis steamer Pampa sailed from this port on Monday with 46 passengers and the following cargo for Havre direct—

2,486 bales wool
26 bales hair
4 cases feathers

The Pacific Co's steamer Patagonia will leave Montevideo on Wednesday 20th for Old England. She takes a good many passengers from this port. Mails close in General Post Office at 3 p.m. on Monday 18th.

The Portena is expected at Montevideo to-day and will leave for Havre direct on 21st instant.

It is very currently rumoured on the Bolsa that next month the National Bank will issue its own specie notes, which will be payable in gold at sight, and on the same principle as the specie checks at present so current in this market. The Bank will only issue these gold checks or gold notes to its customers and representing the actual gold it has in its vaults in Calle Reconquista. The affair is much talked of and considered most feasible.

Captain Lyons, of the str. Hipparchus, was welcomed on 'Change. We are much indebted to him for late papers.

The Villarino entering the Boca ran aground yesterday and had to wait for the tide to get off; she does not go into dock now, but returns in a few days to Patagones.

Messrs Huss & Co, in their cattle review for the past fortnight, give the following:—

Business has not been very brisk, for although many estancieros in the central districts were inclined to sell, the generally bad state of the camps prevented buyers from coming forward, but the recent change in the weather has considerably altered this state of affairs, as buyers are offering freely, whilst holders have increased their pretentions.

We do not think the saladeros killing will be more than 100,000 head this season, whilst in other years it has reached from three to four hundred thousand, thus leaving very many herds without even being looked over;

this accounts for the great discrepancy in the prices paid.

The exportation of produce has been more active than during the previous fortnight; prices remain substantially unchanged, both here and in Europe.

Fat Steers—
Sell at previous rates, both for saladero and for the market.

Steers for fattening—
We have very few transactions to report, at prices varying from $310 to 375 m/c.

Picked Cows—
There are many buyers for this description of stock, but such lots as were offering before the rain came on have since been withdrawn; some sales were made at $320 and 350 m/c.

Cows 'al corte'—
Some transactions have taken place at about last fortnight's prices, though more firmness is noticeable. We may consider $250 or 260 to be the standard rate, according to quality and to proportion of steers.

Wethers—
For some time past there has been very little doing, but as winter approaches we note more briskness. Present rates $50 to 52 m/c, according to degree of fatness.

Sheep 'al corte'—
Are well sustained, and in active demand, at prices varying from $36 to 44, or an average rate of $44. In general they are in good condition.

El Sabado 23 de Abril

A las 3 de la tarde

Remataremos a la mas alta postura para el contado y el resto a ocho años de plazo, pagaderos en anualidades de 18,000 pesos con letras de Gobierno.

Tres leguas de magnificos campos con aguada permanente en varias lagunas, conocidas en Guamini por 'La Invernada' distantes una legua del pueblo del mismo nombre.

El campo tiene 60 cuadras de frente por 80 cuadras de fondo y esta rodeado de los establecimientos de los Sres Humphreys, Jefferes, Ricketts, Tetley y Norton, varios de estos senores van ya a proceder al alambrado de sus campos y a poblarlos sobre la marcha, de manera que la Invernada va a quedar alambrada por dos costados.

Ademas estos campos estan a pocas leguas de los campos que va a rematar el Gobierno el 23 de Abril e inmediatos a las veinte leguas que van a entregarse al Brigadier General Roca sobre la laguna Alsina que esta a pocas vs de la linea de estas 3 leguas.

El Ferro carril del Sud que estendera su red hacia Bahia Blanca pasando por Guamini o Carhue desde el Azul, pasara muy cerca de este campo asi que tendran inmenso valor los Establecimientos que queden en esa zona debido no solo a esa ventaja sino a la bondad de sus pastos y tierras, que no tienen rival en la Provincia.

La base para la venta es 110,00 ps m|c por legua cuadrada pudiendo el comprador cargar con las letras del Gobierno que importan 18,000 ps anuales cada una y por 8 anos.

Actualmente hay una diligencia que sale todas las semanas de Azul a Guamini y por 10 pesos se manda un telegrama desde B. Aires, la estacion queda a una legua del campo.

Los interesados pueden ocurrir por mas informes y planos a nuestra casa Alsina 78.

THE VILLEGAS EXPEDITION.

There is so much interest now taken by the public in everything connected with Patagonia, that the following account of the progress of the expedition under General Villegas will be acceptable to our readers:—

"Before describing the march of the troops, a brief glance at the preliminary plans laid down may be of interest. The first Brigade, marching by the eastern slope of the Andes, will support the 2d Brigade, which will move by the northern bank of the Limay, so as to act together in case of an attack in force by the Indians. The third Brigade will march on the south of the rivers Negro and Limay and join the others at El Lago on 10th April.

"This converging movement of the brigades puts the savages between three fires, flanking their 'tolderias' and cutting off their retreat, and only some unforeseen failure in the triple movement can save them. The Third Brigade will have a longer march than the others, and will have to make some forced marches in order to reach the point of junction in time. This Brigade crossed to the south bank of the river across the island of Choelechoel, marching along its banks to 2 leagues above Negro Muerto, to a place called Castre, encamping there on the 6th inst. Castre is a league and a half from the place where the brigade had to cross first.

"The troops marched on the 11th Up to the 15th 100 men, in pickets of 25, set out at an interval of one hour between each, all joining again on this side of the river, on the banks of the Arroyo Valcheta. This plan saved us many difficulties, to say nothing of our horses, which would have suffered greatly if the whole brigade had attempted to cross together.

"On March 15th 'reveille' was sounded at 3½ a.m. The Celsius thermometer marked 16° at 5 a.m., 21° at 10 a.m., and 15° at 9 p.m. The weather was fine and the general direction of the march S.S.W. S.S.E. On the 15th General Villegas started to rejoin the troops on the other side; on the march we passed three lagunas whose appearance indicated perennial drought, as, although it had rained heavily a few days before, they were almost dry.

"The abandoned camp is a league and a half from the pass, from this four leagues to the first 'laguna,' then 2 leagues more to the second, and to mount Gualicho, three, leaving the third 'laguna' one league to the right of the road. Mount Gualicho (very justly called so by the Indians) is impassable by night owing to its dense thickets; it is three leagues across and disappears in an old, salty, dried up arroyo. The full moon's light enabled us to get through the wood, and we encamped at 8 o'clock p.m. on the banks of the said arroyo, after a march of 13½ leagues.

"On 16th march set out at 3½ p.m., marched till 5 a.m. and after a rest of two hours, started again and reached the top of the Sierras de Valcheta, 9 leagues off, at 3 o'clock a.m. Following its western slope, and leaving extensive 'salinas' on our right, we descended into the valley of the same name, 2½ leagues from the top of the hill, which is about 50 metres in height, more or less. We marched across the plain for 3½ leagues, and encamped at 8 p.m. near a spring, only a league and a quarter from the camp of the bulk of the brigade, the distance marched being 15 leagues.

"The view of the horizon from the top of the Valcheta is grand and imposing; exhausted 'salinas' lay at our feet, the reflection of the sun's rays on them giving them a fantastic aspect, and our intense thirst and fatigue after the march made us fancy they were of potable water.

The arid, sterile and broken soil has hereabouts the generic characteristics of high lands, where the settler has hard work to vanquish the stinginess of nature. But the valley is the antithesis of this. Clothed in a verdant covering of the most lovely green pasturage, in prodigal abundance, its width is from 30 squares to a league for its whole length. The soil is very fertile and productive, somewhat sandy, and the surface covered with a thin coating of nitrate, the natural consequence of its proximity to the 'sierras.' To weary travellers the valley, doubtless, appears all the more charming.

17th. 'Reville' at 3½ a.m. Remained encamped all day to rest men and horses.

18th. 'Reville' at 3½ a.m. Fine weather. Route W.S.W. Struck tents at 6 o'clock and joined the troops on the 'Valcheta arroyo,' 1½ league off. The Indian guides then took us through the valley to the place where the advanced guard of 100 men, under Lieut.-Colonel E. Ruiz, were encamped. The valley became at every step more beautiful and teeming. We marched along the northern bank of the 'arroyo' making a short halt at 9 o'clock, then passed to the southern bank across an island three leagues long and 25 squares wide, encamping at 10½ a.m. The crystalline stream is very narrow and runs rapidly from S.W. to N.E. We marched five leagues to-day. As can be seen, the whole distance marched to this encampment from Castre is 27½ leagues. Between Castre and Valcheta the shrubs we met with were the 'retama,' 'piquiyin', 'jarelli,' 'brea,' 'algarroba,' 'chañar' and 'malle morado' (good for tanning); also the 'sampa,' 'cachi yugo,' and the 'lomilla' and other aromatic plants.

19th. Remained encamped all day but the advanced guard (45 men) marched for the Salado Arroyo, eight leagues off.

THE ITALIAN EXHIBITION.

The National Government has issued the following decree, which will interest both those immediately concerned and the public in general:—

B. Ayres, April 9th,

Considering.—That both the initiators of the Italian Workmen's Exhibition, which was opened in this capital on the 20th of March last, and the manufacturers, artists and producers who have sent exhibits to it are worthy of some mark of appreciation on the part of the Government, to show its sense of their efforts in favour of the progress of the country. The President of the Republic decrees—

Art. 1. The Director of the Department of Agriculture, Dr Dn Emilio Alvear, Dn Santiago Estrada, Dn Roberto Cano, Dn José M Lamas, Dn Leon Walls, Dn Eduardo T Mulhall, Dn Pablo Coni, Dn Luis Tamini, and Dr Dn Carlos Molina Arrotea are hereby appointed as a Committee to report on the preliminary efforts made to carry out the Exhibition, and, having duly examined the exhibits, to adjudge, in the name of the Government, gold, silver and bronze medals according to the merits of each,

Art. 2. The Committee, if necessary, will avail themselves of the assistance of experts in forming their judgment of the exhibits.

Art. 3. The prizes to exhibitors shall consist of bronze medals and diplomas, together with a certificate in which the reasons for granting the prize shall be set forth.

Art. 4. The Department of Agriculture is charged with providing the medals, diplomas and certificates referred to.

Art. 5. When the Committee have reported, the Government will arrange the form in which the prizes shall be distributed.

Art. 6. Let this be communicated, published, &c.

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL
Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.
Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.
Matron and Professor of French and Music—Miss Finneran.
English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.
Pension, exclusive of extras, £30.

Dr. Jayne's ALTERATIVE

This valuable preparation combines all the medicinal virtues of those articles which long experience has proved to possess the most safe and efficient alterative and deobstruent properties, procuring for it a world-wide reputation as

THE GREAT PURIFIER OF THE BLOOD AND RENOVATOR OF THE SYSTEM.

Whenever the economy of the life giving fluid has been vitiated, it should be immediately called to help. It drives out pernicious humours, stimulates the absorbents, overcomes the obstinate state of the pores of the skin, regenerates the disordered organism, reestablishes health and sprits, and brings back a bright colour to the pallid complexion.

Thousands of testimonials establish its immense success for curing Scrofula or King's Evil, Skin and Mercurial diseases, Boils, Carbuncles and Ulcers, Dropsy and Dropsical Swellings, Enlargement and Ulceration of the Bones, Joints, Glands or Ligaments, Erysipelas, Epilepsy, Gout, Rheumatism and all diseases originating from a depraved and imperfect state of the Blood.

DR. JAYNE'S ALTERATIVE

is compounded from carefully selected drugs; free from all mineral admixtures and may be Safely Relied on by all needing a medicine to build up the system, cleanse the blood and restore the healthy action of the secretive organs.

Al Publico

P. DILLEMANN y Ca., para evitar juicios erroneos en el asunto de la marca PESCAD', hacen constar:—

1°. Que sacaron en el año 1874 Patente por la marca PESCADO en Francia.

2°. Que sacaron Patente de la marca PESCADO en el año 1876 en la Republica Argentina en toda forma para los articulos de FERRETERIA y CUCHILLERIA que acustumbran introducir en este mercado, como marca de COMERCIO y de FABRICA, la cual les fué concedido para SU USO ESCLUSIVO. La Patente fue publicada durante un mes en los diarios, segun lo prescribe la ley, sin que hubo alguien que hubiera protestado contra ella.

3°. Que habiendo sido introducido una imitacion y falsificacion de su marca, acusaron criminalmente la casa que habia cometido este delito. La casa en cuestion, los Sres. Mantels y Pfeiffer, fue condenada y la sentencia publicada en los diarios por cuenta de ella.

4°. Que recien durante la tramitacion del proceso la casa de Mantels y Pfeiffer buscó hacer valor la patente de un fabricante en Francia a la Carpa, y pidio su registracion para Coutaret Denise y fils, la que les fue negada por la oficina de patente por ser PROPIEDAD EXCLUSIVA de P. Dillemann & Co. en la Republica Argentina, como marca de COMERCIO y de FABRICA.

5°. Por ultimo recurso se dirigio la casa de Mantels y Pfeiffer al ejecutivo en apelacion para obtener el registro de la marca Carpa, y el Exm. Gobierno ha tenido a bien, concederles parte, de lo que es PROPIEDAD NUESTRA, adquirida en toda forma, como lo prescribe la ley.

6°. Al fin diremos, que todos los ferreteros que vienen a nuestra casa, saben que si la marca Pescado ha adquerido una cierta fama es porque hemos trabajado durante muchos años, a espender los articulos de esta clase en la mejor calidad.

En cuanto a las apreciaciones, que ciertas personas se han permitido hacer de nuestro modo de proceder, no hay necesidad de defendernos, 32 años de vida comercial en esta plaza bastan para habernos hecho conocer.

c 18 m5

AL PUBLICO

La casa de Dillemann & Co. ha creido conveniente llamar la atencion publica por medio de los diarios sobre una cuestion de marcas que ha tenido con nosotros y que ha concluido ahora con nuestra mas completo triunfo.

A estas publicaciones contestamos

1. Que la marca carpa (UN PESCADO) es la propiedad de los fabricantes en cuchillería Srs. Contaret Denise & Fils quienes lo poseen hace mas de 60 años.
2. Que nosotros hemos presentando poder de dichos fabricantes.
3. Que si la casa de Dillemann & Co. ha hecho registrar aqui en su nombre la marca pescado era con el evidente objeto de usurpar los derechos de nuestros representados.
4. Que es ridiculo de Dillemann y Co. llamar imitation y falsificacion los cuchillos importados por nosotros y comprados al fabricante (verdadero dueño de la marca de de 60 años.)
5. Que Dillemann & Co. no son fabricantes sino introductores como nosotros, no tiene valor su pretension de haber anotado la marca Pescado como suya en un pueblito de Francia cuando debian registrarlo en el Ministerio de artes y oficios de Paris lo que no consta que hayan hecho.
6. Que por toda contestacion a todos los desahogos de los Srs. Dillemann y Co. agregamos el decreto del Gobierno Nacional.

Por los fundamentos del precedente dictamen del Sr. Procurador General de la Nacion queda sin efecto la resolucion de 24 Octubre 1878 por la que la Oficina de Marcas de Fabrica y Patentes de Invencion denego a los Srs. Mantels y Pfeiffer la marca CARPA que estos solicitaron en representacion de los Srs. Contaret-Denise et Fils para articulos de cuchilleria, y vuelva el espediente a dicha Oficina para que sin perjuicio a los Srs. Dillemann & Co. verifique el registro correspondiente en los terminos de la Ley.

Comuniquese, publiquese e insertese en el R. N.

ROCA
A. del Viso.

Como se ve este decreto pone fin a cualquier polemica y no justifica de ningun modo el proceder de la casa de Dillemann & Co. a pesar de sus 32 años de vida comercial en esta plaza.

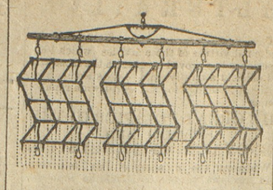
HOWARD'S CELEBRATED HARROWS.

Howard's Iron Harrows.



These Harrows have stood the test of many years experience and still remain unrivalled, the demand being greater than ever. Hundreds of thousands are in use. They are strong, durable, and thoroughly adapted for all kinds of work. The tines—which are all steeled—are so fastened that they cannot get loose.

The following are some of the most useful sizes:—

Prices in England.

Call for Tenders

FOR THE

City Improvement Works

OF

BUENOS AIRES.

The Improvement Works Commissioners, duly authorised by National Government decree of 28th December last, hereby calls for tenders to complete the Drainage and Water Works within the radius defined by the Law of the Province of Buenos Aires of 9th Sept. 1876, subject to the estimated cost sanctioned by the Law of November 8th 1878, on the following bases—

1st—Tenders must be presented, before the 15th July of this year, to the Secretary of the Commissioners, under seal, to be opened on 30th of same month, in presence of those interested, or their representatives.

2nd—Each tender must be accompanied by a receipt from the Treasury or the National Bank for 50,000 hard dollars, as a guarantee of good faith, as provided by Art. 15 of the Public Works Act. A tender once accepted, the contractor, as provided by Art. 23 of the same Act must give a guarantee, satisfactory to the Commissioners, for 250,000 hard dollars, or deposit said amount in the National Bank in cash or National Bonds at the price of the day.

3rd—The contractors will be bound to take from the Commissioners all the cement and bricks for the works, at 20 hard dollars per thousand bricks and 34 hard dollars per 1016 kilogrammes of cement (equal to an English ton) the bricks to be delivered at the stations of the Northern Railway.

4th—The materials which the contractors may import for the works must be inspected before being accepted, by the Commissioners, engineer, without any remuneration to the contractors. The Commissioners will obtain entry free of Customs duty for all materials for the works.

5th—The works must be constructed on the same plans and conditions as laid down for the tenders called for in February 1873.

6th—The bidders must bind themselves to finish the works within 20 months, to count from the day on which they receive the orders to begin them, subject to the penalties laid down in the conditions before mentioned, in case of not completing the works within the time specified, or of there being any difference or defect in construction.

7th—The contractors must take over all the materials, implements etc. which the Commissioners bought from Mdssrs Newman, Medici & Co, on cancelling their contract, and at the price paid by the Commissioners. The inventory of these material etc can be had from the Commissioners Secretary.

8th—Those who intend to send in tenders can obtain every information from the Secretary.

9th—The contractors must send, at their own cost and time, an engineer to superintend the erection of the machinery and buildings, subject to the plans and models the Commissioners may select.

10th. The Contractors must guarantee the power and efficient working of the machinery for one year, and be responsible for any breakage caused by bad workmanship or materials, this responsibility to cease when the broken part is repaired with material of good quality and put in its place.

11th—Separate bids can be presented for the construction and erection of the machinery, as well as for the other works.

12th—The Commissioners reserve the right of accepting the tender they consider best for the public interests, and rejecting them all if they see fit so to do.

B. Ayres, Feb. 23, 1881.

CORDOBA

GOVERNMENT Mortgage Bank

Offices 111 CALLE SAN MARTIN

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid on long dates.

It gives Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of propeasty offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 fuertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortisation fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly

Mortgage for 20 years 117 days, 8 per cent interest 2 per cent. amortization, and 1 per cent commission.

Series B—Quarterly

Mortgage for 27 years 270 days; 8 per cent interest, 1 per cent amortization, and 1 per cent commission.

Series C—Half-yearly

Mortgage for 20 years 190 days; 8 per cent interest, 2 per cent amortization, and 1 per cent commission.

Series D—Half-yearly

Mortage for 28 years 5 days; 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sum stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage.

The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagers shall pay from 8th to 15th of each January, April, July and October, and half-yearly mortgagers shall pay between the 8th and 16th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 15th January, and from 30th June to 15th July.

The Mortgage Bank can not between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for the purpose will receive deposits without interest which will receive a preference, and which sums will be deposited in the Provincial Bank

Cedulas are taken in deposit from 1 Cedula of 50 Patacons he lowest amount issued by the Bank) upwards.
